

June News

From Mrs. Perrotta's Class

We survived State Testing! The students did an excellent job preparing and then taking their time throughout two weeks of testing. I am very proud of them, and you should be too!

In Language Arts, we just finished our biography projects and presentations. Thank you for sharing your childhood with your kiddos! They enjoyed finding out more about you and surrounded my desk to brag about you after the interview! It was really adorable! We had Governor Carney stop in with Senator Lopez while the kids were typing their biographies. Both the Governor and Senator were really impressed with their writing skills! Yay! They have definitely come a long way in the writing department! I am beyond proud of their growth!

I have enjoyed teaching your children this year! As always, feel free to contact me with any questions or concerns. If I don't see you, have a wonderful summer! I will miss your children!
